About ChildCareRegister.Com - Founder's Story

From managing a global steel company to running a local child care, our journey is built on efficiency and care.

A LETTER FROM THE FOUNDER

*"We own a child care business in Brantford, Ontario, Canada.
Running a high quality child care isn't easy!"*

Tasked with creating a warm nurturing environment to help children prepare for school and life, while we balance the books, prepare for compliance audits, make wholesome meals, maintain premises for health inspections, continuously preparing administrative documents for authorities, and maintaining a child care business with razor thin margins.

While virtually every other industry relies on business software technology tools to help streamline, organize, communicate and show business strengths and weaknesses, the child care industry continues to lack in these areas. We need to change this, so that we can be a more efficient industry! I want to try to change that!

My background is in quality assurance management, where I worked for a large multi-national steel company with plants all over the world. We implemented an online web based QMS (Quality Management System) that helped us save millions of dollars.

The QMS system provided us good information and data at our fingertips where we could now make quick decisions and improvements in nearly every area of the company. I want to create a similar system for the child care industry, **One App at a Time!**

I hope you enjoy this app and get ready for more to come! If you have any ideas that you would like to see in a child care app, please use the contact page and I will be sure to get back to you, Thank You!

Our Core Values

The principles that guide every feature we build.

Reliability

Your data is critical. We ensure 99.9% uptime and constant backups so your registration forms are always accessible when you need them most.

Safety

We utilize bank-level encryption to protect sensitive child and family information. Compliance with privacy standards is our top priority.

Ease of Use

If it's not easy for a busy parent to fill out on a phone, it's not good enough. We design for the real world, not just for the desktop.

Experience the difference focus makes

Join thousands of providers who have ditched the paper and embraced a simpler registration process.

Digital Enrollment Form

Step 4 of 4: Consents & Final Acknowledgement

Authorization for Non-Prescription Skin Products

The following Parent/Guardian Supplied non-prescription items may be applied to my child in accordance with the manufacturer's instructions on the original container. Please check all that apply:

☐ Sunscreen

☐ Diaper Creams / Ointment

☐ Insect Repellent

☐ Lotions

☐ Lip Balm

☐ Hand Sanitizers

Note: Our facility does not supply any of the above non-prescription items. Parent/Guardian is responsible for the purchase of these products.

Additional Information

Please indicate any additional information that is relevant to the care of your child (e.g., prone to colds, frequent shoulder dislocation, etc.):

Type any health concerns or special instructions here...

Parent / Guardian Acknowledgement

+ Add Another Parent/Guardian

Note: 'Parent' is defined as a person having lawful custody of a child or person who has demonstrated a settled intention to treat a child as a child of his or her family, and includes legal guardians.
